### ABOUT THE UNIVERSITY

The Indira Gandhi National Tribal University, Amarkantak was established by an Act of the Parliament of India in 2007. The University started functioning in July 2008. The jurisdiction of the University extends to the whole country and it is fully funded by the Central Government through the University Grants Commission. The university caters to the tribal's long-cherished dream of higher education.

Aims and Objectives:

The tribal people are rich in cultural heritage and skill of art and craft but they are still marginalized in respect to higher education as well as in other walks of life. Now in the present age of globalization, the world has shrunk into a village as society has advanced in technology. But the tribes, who are the custodians of Indian culture in a real sense, are far behind in this race of advancement. In order to rescue them from the present plight, the university has put before itself the following aims and objectives-

- To provide avenues of education, especially higher education and research facilities primarily for the tribal population of India.
- To disseminate and advance knowledge by providing instructional and research facilities in tribal art, tradition, culture, language, medicinal systems, customs, forest-based economic activities, flora, fauna, and advancement in technologies relating to the natural resources of the tribal areas.
- To collaborate with national and international universities and organizations, especially for undertaking cultural studies and research on tribal communities.
- To formulate tribal-centric development models, publish reports and monographs to organize conferences and seminars on issues relating to tribes, and provide inputs to policy matters in different spheres.
- To take appropriate measures for promoting the members of tribal communities capable of managing, administering, and looking after their own needs by access to higher education through a university of their own.
- To disseminate and advance knowledge by providing instructional and research facilities in such other branches of learning as it may deem fit.
- To take appropriate measures for promoting innovations in the teaching-learning process in inter-disciplinary studies and research and to pay special attention to the improvement of social, educational, and economic conditions and welfare of the scheduled tribes within the Union of India.
- In view of the aims and objectives of the university, the major thrust will be on providing more opportunities for the tribes. However, the university is open to all

### ABOUT THE MMTTC

The Ministry of Education has renamed the existing UGC-HRDCs and PMMMNMTT centers as Malaviya Mission Teacher Training Centres (MMTTC) towards training faculty of Higher Education Institutions to provide more effective teaching. The main objective of the MMTTC is to orientate and sensitize of the faculty numbers of HEIs on core NEP 2020 themes. The program focuses on improving the quality of education at all levels by infusing quality and excellence in teaching. The vision of these centers is to build competencies in the faculty for better teaching, learning, and research by exposing them to Indian values, updating knowledge and skills, and aligning with the needs of society NEP 2020.
