Objective

To empower the library professionals, our library is providing a Five (05) day online training program to enhance the library automation knowledge of interested library professionals.

The online workshop will cover the following topics.

- Linux basic commands and installation of Koha.
- Setting up library in Koha including Basic Parameters & Global System Preferences.
- Acquisition and cataloguing Module in Koha.
- Circulation, Serial control and Authority control.
- OPAC customization, email and network configuration and Gate register implementation.
- Offline check in check outs, bulk patron creation, conversion of excel sheet into accession register and MARC record creation, and data migration.
- Backup and restoration of database, and handling the issue of system corruption.
- Stock verification, reports, creation of subject category, batch modification of item and records, and batch deletion of items and records in Koha.
- Installation of Ubuntu, enabling Cronjob, barcode, and patron card creation.
- Brainstorming session on Koha, challenges faced and resolving the some of the bugs and DBMS auto increment fix in Koha (doubt clarification).

About the University

The Indira Gandhi National Tribal University, Amarkantak, has been established by an Act of the Parliament of India. It came into existence by the Indira Gandhi National Tribal University Act, 2007 and came into action in July 2008. The jurisdiction of the University includes the whole country, and the Central Government fully funds it through the University Grant Commission. The university caters to the tribals' long-cherished dream of higher education.

About the Library

The University Library, Indira Gandhi National Tribal University is a Centre of information for the university's academic community and is expected to be developed into a hub of knowledge to all the academic community and a gateway to national and global expertise. It ensures fair

access to knowledge to the academics on the campus in particular and each individual related to the university in general. The Library started functioning in July 2009. Within a short period, it could attain a considerable level of development and is moving fast towards a fully automated library. The library is using KOHA Software for automation.

Who should attend?

Interested library professionals who are working in Universities and Colleges in India. And participant must have the basic knowledge of computer handling (Windows), install application software, and work with Internet Explorer or any other browser.

Overview

Koha:

Koha is the first Open Source Integrated Library Management System (ILMS) that can take care of all library activities such as Acquisition, Cataloguing, Circulation, Serial Control & Online Public Access Catalogue. Koha is based on International library standards and protocols (such as MARC21, Z39.50 etc.) that ensure that Koha data can be exchanged between similar ILMSs. & any other library management system. More details about KOHA can be found at <http://koha-community.org/>.
